What unique skills and relevant experience would you bring to the work of the Land Use & Planning Board? Describe any experience you may have with civic, professional or volunteer organizations and other city boards or commissions. List any awards or special recognition.

Recommendations of the Land Use & Planning Board often require Board members to balance seemingly conflicting public goals, such as environmental preservation and economic development; or private property rights and land use/development controls. How would you approach the balancing of goals and objectives for yourself?
